Balancing Cure with Care: Advances in Late Life Mental Health

2nd International Conference on Capacity

Tuesday, 13 October 2015

2nd International Conference on Capacity

IPA has long recognized capacity as an issue with clinical, ethical, medico-legal and human rights relevance to clinicians across a range of disciplines working in old age psychiatry. Originally championed by Sanford Finkel (IPA Past President), this issue has been garnering support through the efforts of both the IPA Capacity Shared Interest Forum and the Taskforce for Testamentary Capacity and Undue Influence. Growing interest resulted in the 1st International Conference on Capacity in Hong Kong (September 2014). Hosted by Capacity Australia in conjunction with the Hong Kong Psychogeriatric Association, the conference attracted 60 delegates from 8 countries.

Building on that success, the upcoming 2nd International Conference on Capacity, convened by IPA in conjunction with Capacity Australia, promises to once again showcase novel plenaries addressing a breadth of issues. This year's theme, "The Science of Decision-Making" includes topics ranging from will-making to awareness in dementia and supported decision-making and will be presented by leaders in this field.

An application has been made to the EACCME® for CME accreditation of this event.

This conference is
conducted in collaboration
with Capacity Australia.

The 2015 IPA International Congress will be held 13-16 October, 2015 in Berlin, Germany.
See the back of this flyer for more information.

WORKSHOP PROGRAM

Plenary – How to Survive and Thrive in Large and Complex Will Contests: Trials and Tribulations

Speaker: Sanford Finkel (United States)

Plenary – 50 Shades of Capacity in Protective Jurisdictions

Speaker: Malcolm Schyvens (Australia)

Jay Luxenberg (United States)
Ken Shulman (Canada)

Free / Oral Communications Sessions

Featuring speakers from around the world.

DISCLOSURES

Educational Disclaimer – The primary purpose of the INTERNATIONAL PSYCHOGERIATRIC ASSOCIATION programming is to provide educational opportunities that enhance patient care. Information presented, as well as publications, technologies, products and/or services discussed are intended to inform participants about the knowledge, techniques and experiences of physicians who are willing to share such information with colleagues. A diversity of opinions exist in the medical field, and the views of the workshop's faculty are offered solely for educational purposes. Faculty members' views do not represent those of the IPA and do not constitute endorsement by IPA. IPA disclaims any and all liability for all claims which may result from the use of information, publications, products and/or services discussed at this program.

Disclosure of Commercial Relationships – IPA policy requires faculty to discuss any significant financial or other relationship with the manufacturer(s) of any commercial product(s) or service(s) discussed in their presentation. This policy is intended to make participants aware of speakers' financial or other relationship(s) so that attendees may form their own judgments about material discussed during the educational activity. Full disclosure of faculty's commercial relationships will appear in individual program materials. All faculty understand and adhere to IPA guidelines that require full disclosure of commercial relationships, unlabeled use of products and identification of data sources.

Unlabeled Use Disclosure – INTERNATIONAL PSYCHOGERIATRIC ASSOCIATION requires all faculty members to disclose if a product is not labeled for the use being discussed or if the product is still investigated. Such disclosures will appear in program materials.

Balancing Cure with Care: Advances in Late Life Mental Health

This year's IPA Congress will focus on balancing races for the cure against the undeniable obligation we have as mental health professionals to care for our patients and their families. Increasingly care and cure are blended in our professional lives such that the most effective interventions of today combine cure and care oriented approaches.
